

Held by Woman's Foreign Missionary Society of First M.E. Church.

The Woman's Foreign Missionary Society of the First M.E. church met with Mrs. E. B. Randle this afternoon at 3 o'clock. The subject of the meeting was "Young People in Missionary Work." Mrs. G. M. Wood was the leader. The program consisted chiefly of news from the foreign field. Mrs. Robert I. Hunt read a paper and Mrs. W. C. Armstrong read an original poem, written by a New York woman. Current religious and missionary items were given by different members. There were also several musical numbers.

Tea will be served at 6 o'clock this evening and will be followed by a musical and literary program. The choir of the First M.E. church will sing and there will be several individual numbers. Mrs. Robert I. Hunt will have charge of the music. Mrs. Milton Johnson will have charge of the evening program.

THE NEGRO PROBLEM.

WASHINGTON, June 20.—The industrial commission today continued the investigation of the agricultural conditions in the south. J. Polk Brown, president of the Agricultural Society of Georgia, dwelt on the presence of the negro as a special cause of want of development in the south. He regarded him as retarding the industrial, moral, religious, social and agricultural development of the section. He felt that if they were not at a better class of labor would take their place. He wanted them separated from the whites and colonized.

DEGREE OF CIVIL LAWS.

SOUTH HADLEY, MASS., June 20.—Mount Holyoke College today conferred on President McKinley the degree of civil laws. The president, in accepting the degree, thanked the trustees and officers for the honor. He spoke briefly in advocacy of higher education for women, saying among other things: "An educated womanhood is an open school for citizenship every day in the year and the home is training for other soldiers and statesmen."

EDITORS AT CHICAGO.

CHICAGO, June 20.—The Inland Daily Press association comprising newspaper publishers in Illinois, Michigan, Iowa, Wisconsin and Indiana, met today. Several subjects of interest to publishers were discussed. Among those present were Pierce Burton of the Aurora, Ill., Press; James J. Lavelle of the Rock Island Argus; William D. Tufford of the Clinton, Iowa, Age, and S. W. Grubb of the Galesburg, Ill., Republican-Register.

See the Owens team in pleasing sketches at Riverside park tonight. Admission free.

MUSIC TEACHERS.

CINCINNATI, OHIO, June 20.—The 21st annual convention of the Music Teachers' association began today. There is a very large attendance, with representatives from Europe as well as all parts of America. The morning session was devoted to routine business, the afternoon to an organ recital.

NOTHING NEW.

No Further News Has Been Heard from C. C. Barnard—Matter Dropped.

There was nothing new today in the case of C. C. Barnard. J. S. Starr said that he had heard nothing further and as yet Mr. Barnard has not put in an appearance in Decatur. It is not thought likely that anything more will be heard from Barnard and those interested do not seem to think that he will ever come back.

Jacobs was Acquitted.

Chauncey Jacobs, the young colored man who was charged with using profane language before some girls, was brought up for trial yesterday but was acquitted as there was no evidence against him. Jacobs has always been very well behaved and has borne an unusually good reputation and he therefore was considerably worried about the affair, fearing that his reputation would suffer. The swearing out of the warrant against him was either a mistake in the man or else a piece of spite work.

Will Move to Peoria.

William Ishmel of Warrensburg was in the city today. He is contemplating going to Peoria to locate.

The accident that happened to Scott Stewart would have been averted had it been an insurance gasoline stove.—6-dit

Don't forget to eat ice cream. Thursday evening at the corner of Church street and Leeland avenue. Wheels checked free.

CLOUDBURST IN OLD OHIO

Isaac Hunter Drowned and Bridges Gone.

LOUDONVILLE, OHIO, June 20.—A cloudburst occurred here last night, accompanied by a severe electrical storm. Horse Tail creek broke from its banks. The house of Isaac Hunter was swept from its foundation and completely destroyed. Hunter's body has not yet been recovered. All of the fine bridges on the stream above here were destroyed. Many head of live stock were drowned and all farm products in the valley are gone. The water is still rising. The loss so far is \$300,000.

A WHITE MAN FOUND GUILTY

Murder Verdict Causes Surprise in the South.

MEMPHIS, TENN., June 20.—An unexpected verdict was rendered today when a white man of wealth and social influence was convicted by a white jury of murder for the killing of a negro. Greenberry Redditt, a wealthy farmer, shot Maggie Hobbs, colored. The defense claimed that the woman was advancing on Redditt with a brick and the latter fired in self defense. The jury, composed entirely of white citizens, returned a verdict of guilty of murder in the second degree. Redditt was given 10 years in the penitentiary.

ED GOGERTY GETS \$3500

Supreme Court Decision in Cereal Mill Case.

In the Illinois supreme court today the appeal case of the Edward Gogerty vs. Decatur Cereal Milling Co. was affirmed.

About two years ago Edward Gogerty, son of ex-Alderman John Gogerty, an employee of the Decatur Cereal Milling Co., while operating a rope used in loading the cars, had the misfortune to lose his left arm close to the shoulder, totally disabling him for father usefulness at the mill. Gogerty instituted suit in the circuit court against the company and the jury gave him damages in the sum of \$3500. Mills Brothers and Hugh Crea, represented Mr. Gogerty and John & Housum and a Chicago law firm represented the defendant. The case was taken to the appellate court, where the decision of the circuit court was affirmed and the case was then taken to the supreme court where it was affirmed today. The \$3500 will be paid to Mr. Gogerty, but not by the milling company, as the firm is protected by a Casualty company.

Illinois Water Survey.

The Illinois water survey will give more particular attention to the study of the ground waters of the state, i.e., waters from wells, springs, tile drains, etc., with the purpose of investigating the nature of the ground water supplies, as regards their wholesomeness for domestic uses, and their serviceability for industrial purposes. The department of chemistry of the University of Illinois, by which the water survey is conducted, would be glad to obtain information concerning the location of springs, flowing wells, etc., and particularly as to the depths at which good waters are found in the various sections of the state.

A Ball of Ferns.

Every woman likes to have some flower or plant growing in the room where she spends the most of her time. It was the Japanese who first planned that a ball of ferns similar to those which swing pendant from the chandelier, the portiere pole or any other high place. It is a running fern vine twined round and round a ball of moss, with delicate fronds growing out of every inch or two. It swings, a lovely mass of feathery green, without soil, an unending delight. All it asks is to be immersed a night in the water of a bathtub once a week.—Cincinnati Enquirer.

Fred and Keenie Owens at Riverside park tonight and every night this week.

Principal H. M. Owen left this afternoon for an extended trip through Nebraska.

Rev. Kettle Kamp of Davenport, Iowa, is in the city visiting Mr. and Mrs. Klatt on North College street.

H. Rodenberg of Carmi is in the city visiting his parents, Rev. and Mrs. Charles Rodenberg.

Mrs. E. E. Davis of Lake City was in the city today.

The young child of William Martin of South Maffie street is ill.

Dr. John T. Miller, assisted by Dr. H. C. Jones, today performed an operation on the infant son of Mr. and Mrs. George A. Miller.

A man could make money with five fingers if he didn't have ten for it to dip through.

SOME BIG FISH.

So Big That a Prudent Man Never Went Angling Without a Revolver.

Colson is a star at telling fish stories, but he isn't a marker to the man we met in a canoe off Twin Island. He was evidently an Oxford bear, and he greeted us pleasantly as we pulled by. (I say "we," but the reader will understand that I did the pulling.) "What luck?" we asked.

"Nuthin' much," he answered. "Ain't very good fishin'," chipped in Colson.

"Good?" he grunted, turning so that he could keep alongside us and carry on the conversation. "Good? I should say it wa'n't. You ought to hev seen this here pond when my father was a young feller. Lord, bless ye, ye don't know nuthin' 'bout fishin'!"

"How big a fish did you ever ketch?" "Three pounds," said I, truthfully. "Nine pounds," said Colson.—By "Nine pounds," repeated the native, scornfully. "Nine pounds! Why, I've heard my grandfather tell 'bout their using nine-pounders for bait! Them wuz the days when fishin' wuz fishin'. The lake wuz so darn full of fish then that the farmers never used to buy grain for the hens. Uster set nets an' catch fish fer 'em. Some of my grandfather's hens got so they'd catch their own fish. Grandfather says he larnt the ducks how, an' they larnt the hens."

"That seems to 'ble strange, I know, but I've heard grandfather say as how his father uster feed out fish to the cows. They larnt to like it better'n hay, an' as there wa'n't much hay raised them days it were a great savin'. Only trouble wuz the cows couldn't pick out the bones, an' they uster work down along with the milk and stick into a feller's fingers when he were milkin'."

"Them wuz days when there wuz some fun 'bout fishin'." They never never think of takin' home a fish that weighed under 50 pounds. Some of them big whalloppers uster fight like time. I've heard grandfather tell about bein' out when they'd hooked into a big feller and brought him up to the side of the boat. He wuz ugly and wuz fer comin' right into the boat an' settlin' things. T'other two fellers wuz scart, but granddadd he just pulled out a big revolver he always carried an' shot that fish right plumb through the head.

"Granddadd said it wuz a pretty close call, but he wuz a prudent fellow, granddadd wuz, an' he never went fishin' without bein' armed."

Colson had been listening with rapt attention. As the native concluded he took off his hat deferentially.

"I am something of a liar myself," he said, and I rowed away.—Lewiston (Me.) Journal.

SHE ORDERED COCKTAILS.

And the Clerk Ordered Her to Leave, Which Led to an Explanation.

It was just the other day that a well-groomed and well-bred appearing young woman accompanied by baggage that was a guarantee of her ability to pay for the best the house had to offer registered at one of the big hotels here in town. She had scarcely been shown to her room when she rang the bell and ordered a cocktail. Evidently she found it as a cocktail should be, for in a very few minutes she rang again and repeated her order. The second drink seemed as satisfactory as the first, and a third followed. Indeed, in less than two hours that extraordinary young woman had been served with no less than nine cocktails.

Below stairs her conduct created comment. There was a solemn consultation and presently a clerk knocked at her door and informed her that the manager desired her room at once, and no more of her company. She seemed not to understand quite the meaning of the demand.

"But I don't want to give up my room," she protested. "I like it. I've just come and I'm going to stay several days. What's the trouble?"

The clerk spoke out boldly.

"Well," said he, "we can't have any ladies in the house who can drink nine cocktails in an hour."

The remarkable young woman flung the door open.

"Why, I don't drink them," she said, pointing to the mantel, where eight apparently untasted cocktails stood, all in a row. "I didn't drink them. There they are. I just wanted the cherries."

—Washington Post.

Hampton Arrested.

Harry Hampton, a laborer from Bradford, Ill., was arrested today.

He had been up against the booze and went to sleep in the depot. Officer Koeppe brought the man to police headquarters in the patrol wagon and locked him up in the city prison.

LETTER TO MRS. PINKHAM No. 20,662.

"Two years ago I was a great sufferer from womb trouble and profuse flowing each month, and tumors would form in the womb. I had four tumors in two years. I went through treatment with doctors, but they did me no good, and I thought I would have to resort to morphine."

"The doctor said that all that could help me was to have an operation and have the womb removed, but I had heard of Mrs. Pinkham's medicine and decided to try it, and wrote for her advice, and after taking her Vegetable Compound the tumors were expelled and I began to get stronger right along, and am as well as ever before."

Can truly say that I would never have gotten well had it not been for Lydia E. Pinkham's Compound."—MARY A. STAZEL, WATSON TOWN, PA.

What Mrs. Pinkham's Letter Did.

"DEAR MRS. PINKHAM:—After following the directions given in your kind letter for the treatment of leucorrhoea, I can say that I have been entirely cured by the use of Lydia E. Pinkham's medicine, and will gladly recommend them to my friends."

"Thanking you for your kindness, I am gratefully yours, A. B. DAVIS, Bismarck, N. D."

KANSAS WOMEN TILL FARMS.

A Number Have Taken the Place of the Men Who Have Gone to the War.

"Half of the crops raised in Kansas are sown and gathered by women," said Seymour Davis, one of the largest agriculturists in southern Kansas, in a recent conversation. "This may seem a rather startling statement to comprehend at first, but I know it to be absolutely true. Since the war in the Philippines, nearly 1,000 more women have begun work in the fields. Nearly every member of the Twentieth Kansas volunteers was a farmer, and they left wives, sisters and sweethearts behind them. These women resolved at once to do the proper thing, and they are running the farms themselves, while the boys are away. It's a patriotic thing, but there are more widows, orphans and spinsters who run farms than there are soldiers. Altogether there are 4,000 women in the state who farm. I think that is about 50 per cent. of the entire farmer population. I mean the head of families, who reside on farms—women and children excluded."

"I was out about Solina and Fort Scott when war was declared. Those farmer boys and men could hardly remain at home long enough to do the work. When a second call was issued the women on farms all over the state declared themselves in favor of urging the men folks to enlist, and they would tend the crops while they were away. The men folks needed no urging, and hastened to join the ranks and form the Twentieth Kansas under Funston."

"After they were gone the women went nobly to work. Mrs. Mary Dix and her two daughters run a 250-acre farm in Wilson county. Father and son both enlisted. Mrs. Sample, a widow, whose son is with Col. Funston, lives on a small tract of land in Sumner county, and does the work herself. Her crop yield will be excellent this year."

"I came to the state in 1875, and women had already commenced to farm then. My wife has plowed in the field many a day while I was out hunting after cattle the Indians had stolen. Many of the frontier women of the state did likewise. The girls of this state who work on farms are as highly educated as those who work in stores or adorn the drawing-room. Indeed, I have seen some of the prettiest girls in the state on the farms. They wear sun-bonnets, and do not get tanned. Of course, their hands are a little coarse, but that only proves they are not afraid of work. After all, the Kansas woman is a heroine."—Chicago Inter Ocean.

PET SNAKES IN ILLINOIS.

Immense Reptiles Harbored to Keep the Houses Free from Rats and Insects.

As the writer was sitting out under the board piazza at the restaurant, talking coffee after dinner and smoking, his eyes happened to be turned upward. About ten feet above his head there was a broad beam, probably 18 inches square, the horizontal support of the second story. Directly above, looking down at the group below, was the head of an immense snake, ten feet away. The end of his tail was carelessly hanging over the beam's side.

IN COREAN SCHOOLS.

The Girl Children Are Never to Be Seen in Their Classes During the Daytime.

A letter was recently received in Hanoi, S. D., from Miss Louise Chase, formerly a teacher in the public schools here, but now a missionary in Korea. Of the children of that far-away land, Miss Chase writes:

"Little girls are never seen in the heathen Korean school. It is only the boys who are educated. They are usually six or seven years old—begin to begin, and stay in school until they are 16 or 17. They, during these years, study mostly the Chinese books of history, science and religion. They all want to know the Chinese characters because they think that China is the most powerful and popular country in the world, and as the Koreans have always been ruled largely by China, they have a sort of reverence for that country."

"The boys never wash their faces or faces, or have their hair combed before coming to school each morning, and you know the boys have never washed their hair until about 12 or 13 years old, but wear it in a ball down the back. There are a number of Christian schools in Korea now for the girls. We have one in Fusan, of which Mrs. Irwin has the care."

"The girls come to the little church room two evenings of each week and study the native characters, and learn to read and write them, and then have Bible lesson and commit to memory a great many Scriptural texts. They study evenings, because they have to work hard all day, helping their mothers with the work of taking care of the baby brother or sister. They form a dear little group, and it is easy to love them. They have sweet voices and are proud of their singing."—St. Louis Republic.

Shaming Believers.

Russian photographers shame delinquent customers by hanging their pictures upside down in their glass cases. This method soon compels them to pay up.—N. Y. Sun.

Proof of Civilization.

"What makes you so sure that the natives are becoming really civilized?" "They are beginning to understand how to handle machine guns."—Chicago Post.

Too Indecorous.

Some folks are so indecorous that when they haven't anything else to do they worry.—Chicago Daily News.

An accompanying note says the funds were to be used "by the boys in whichever way, in their judgment, will best promote the interests of the Master's kingdom."

Few of the founders of the Vanderbilt fortunes were men of college training. William H. attended the old Columbia college grammar school, his son, Cornelius, received only an academy education, and William K., though he studied abroad, took no degree. Of the present generation, Frederick W. graduated from the scientific school at Yale, George W. was taught entirely by private tutors, Alfred and Reginald are now at Yale, and William K. Vanderbilt, Jr., went to Harvard.

A letter was recently received in Hanoi, S. D., from Miss Louise Chase, formerly a teacher in the public schools here, but now a missionary in Korea. Of the children of that far-away land, Miss Chase writes:

"Little girls are never seen in the heathen Korean school. It is only the boys who are educated. They are usually six or seven years old—begin to begin, and stay in school until they are 16 or 17. They, during these years, study mostly the Chinese books of history, science and religion. They all want to know the Chinese characters because they think that China is the most powerful and popular country in the world, and as the Koreans have always been ruled largely by China, they have a sort of reverence for that country."

"The boys never wash their faces or faces, or have their hair combed before coming to school each morning, and you know the boys have never washed their hair until about 12 or 13 years old, but wear it in a ball down the back. There are a number of Christian schools in Korea now for the girls. We have one in Fusan, of which Mrs. Irwin has the care."

"The girls come to the little church room two evenings of each week and study the native characters, and learn to read and write them, and then have Bible lesson and commit to memory a great many Scriptural texts. They study evenings, because they have to work hard all day, helping their mothers with the work of taking care of the baby brother or sister. into other homes by telling stories
about how her father abused her. The
child ran away so often that she was
taken to the county jail and cared for
by the sheriff's family. A few days
ago Mrs. Jordan, who has a boarding
house at 828 South Main street, offered
to give the child a home and took her
in charge. Everything was all right
until Saturday night, when Miss
Edna Peterson, one of the boarders,
learned that she had been robbed of
\$30. The matter was reported to Chief
Applegate and Amos Imboden was put
in charge of the case and soon dis-
covered that the Rostek girl was the
guilty party. She had \$19 of the
money still in her possession and with
the rest had bought some jewelry.
The child was taken to the county jail
and a charge of larceny entered against
her. If she is prosecuted she will go
to the reform school. Gustie is 13
years old. She seems to be absolutely
without any heart for her relatives or
anyone else and she cannot be moved
by any argument.

MOVING TO KANSAS CITY.

H. H. Clark Will Take His Soap and
Castor Oil Plant to That City.

H. H. Clark is moving his soap
factory and castor oil plant to Kansas
City and has already begun placing
the machinery on the cars preparatory
to shipping. The lined oil plant
located in this city will remain here
for the present but on account of his
business at Fredonia, Kansas, Mr.
Clark finds it necessary to take up his
residence at Kansas City. He expects
to erect a large flax elevator at that
point. Mr. Clark will soon move his
family to his new home.

BOWLING NEWS.

ONE IN THREE.

The McConnell and Carter bowling
clubs had a game at the Postoffice
alleys last night, in which the McCon-
nell team for the first time in the
series of four games won out. But
it was a close rub, 1795 to 1808 against
the Carter team, a slim majority of 8
pins. The averages were McConnell
team 112 3-4, Carter team 112 1-4.

Smallpox in Philadelphia.

Dr. S. J. Bumstead has a letter
from his son, Charles, who is one of
the staff at the Philadelphia hospital
saying that a case of smallpox was dis-
covered by him in the hospital last
week. The case was in charge of Dr.
Bumstead's room mate who failed to
discover its character and called Dr.
Bumstead in consultation. The
discovery necessitated wholesale vac-
cination in the hospital and has made
a great deal of extra work for the
physicians. The patient was isolated
and it is not thought that there is
danger of the disease spreading. Dr.
S. J. Bumstead says he does not feel
greatly alarmed about the contagion
as the disease is less contagious at
the beginning than later.

Sunday School Picnics.

The Sunday school of the First Baptist
church has arranged to hold the
annual picnic at Fairlawn park on
Thursday, June 29. Hacks will be run
from the church to the park and a pro-
gram will be given.

The Sunday school of the Grace M.
E. church will picnic at Fairlawn on
Tuesday, June 27. Hacks will be run
from the end of the street car line to
the park. The picnic will be an all
day affair for those who care to make
it such. Others will go out in the af-
ternoon and evening.

Hooked a Monster.

Letters received from the Decatur
party at Star Lake, Wis., say that
Mrs. Frank Caldwell has gone away
ahead in making a record as an adept
at fishing. One day last week she
hooked a fish measuring 46 inches in
length and weighing 30 pounds. She
was unable to land it and it took the
boatman one hour and fifteen minutes
to get it ashore.

Gone to Lafayette.

Doc Bryan has severed his connec-
tion with the lunch room on Merchant
street. He was in partnership with
Bert Firey and the latter will continue
the business. Bryan has gone to
Lafayette and will go into business
with his brother.

Woodmen Band Engagements.

The Woodmen band will go to Tolono
to play for the Champaign county
Woodmen picnic and on the 4th of
July the band will go to Warrensburg
to play for the celebration there. The
boys are out in spick and span new
uniforms today.

Cost 1/2 cent per hour to use an In-
surance gasoline stove. Scovill Co.—
6-dtf

To Mackinaw.

The members and friends of the
Order of the Eastern Star Chapter,
going to Mackinaw tomorrow on the
picnic excursion, should remember
that the train on the P. D. and E.
will leave at 6:30 o'clock. Be on time.

Save a Dollar.

Gentlemen's coats, pants and vests
can be re-dyed, cleaned to look like
new at a small cost. Filler, the dyer
and dry cleaner, will make your old
suit look like new. 145 North Main
Street.—19-dtf

PERSONAL

—Mrs. Clarence Croy of North
Church street is ill.

—Mrs. J. O. Lake is confined to her
home by illness.

—W. M. Watts of Mt. Auburn
transacted business in the city.

—T. Hays, who has been ill of
appendicitis, is able to be out.

—Mrs. James Miller of Clinton is
the guest of Mrs. William Catto.

—Mr. and Mrs. Andrew Wilson of
Argenta were in the city.

—Mrs. S. P. Hoy has returned from
a visit of three weeks in Springfield.

—Gerald Page of Peoria is visiting
the family of Mr. and Mrs. F. L.
Hays.

—Mrs. Overstreet of Louisville,
Ky., is a guest of Mrs. E. A. West at
the Carder Annex.

—Miss Grace Miller, who has been
ill at the home of Mr. and Mrs. A.
F. Ross, is improving.

—Miss Anna Vetterliet is attending
the summer school at Champaign uni-
versity.

—Attorney D. D. Hill and Mrs. Hill
left today for a 10 days' visit at Robin-
son, Ill.

—Miss Alice Wood has gone to
Forest, Ill., where she will visit
friends during the summer.

—Miss Neal, teacher in the public
schools of the city, left today for
Crowley, La., where she owns a rice
farm.

—Miss Edna Bunn is spending the
week with Mrs. C. O. Burke at At-
lanta. Frank Bunn will go down on
Thursday for a few days' visit.

—Ex-Sheriff Peter Perli left today
for the south on a prospecting trip.
He goes in company with Mr. Baker
to look at the rice fields in the vicinity
of Crowley, La. On his return he
may possess a deed to a big plantation
and take steps to ship rice to China.

—Oscar Martin, son of Captain I. N.
Martin, who has been residing at
Charleston, South Carolina, during
the past 10 years, in the employ of a
gas company, is now at Havana, Cuba,
where he will locate. He will take
his family to Havana in a few months.

GOT THE WRONG MAN.

Robert Atkinson was Arrested at Ft.
Wayne Instead of Henry Atkinson.

Sheriff Lehman arrived home this
morning from Ft. Wayne having in
charge Robert Atkinson, who was ar-
rested in that city and was supposed
to be wanted in Decatur. The Ft.
Wayne authorities made a mistake.
Henry Atkinson is wanted for stealing
a watch and the Ft. Wayne police
telegraphed yesterday that they had
the man. Sheriff Lehman went after
him and after he left Ft. Wayne it
was learned that a mistake had been
made. Robert Atkinson was of course
released today and the other man who
stole the watch is still at large.

10 Car Loads.

The Gus Ahrens Bottling Works un-
loaded a car of "Pabst Beer" at 8
o'clock Monday and at noon Gus wired
the brewing company for another car.
This will make 10 cars of "Pabst
Beer" received in less than five weeks.
Verily "Pabst Beer" is the "Proper
Caper." Call for "Pabst Beer" and
get the best.

Gus Ahrens Bottling Works.

Both Phones.

Paid a Penalty.

The case of the people for the use of
Edward Posey vs. the Illinois Central
railroad was tried yesterday before
Justice Duggett at Macon. Attorney
J. H. Latham of this city appeared
for Posey. It was claimed that the
Central had blocked the crossing for
more than 10 minutes, the limit of
time, and the road was required to pay
the penalty of \$10.

Vagged and Fined.

E. F. Garrity, who was arrested
last night for disorderly conduct, was
before Justice Hardy this morning.
He was vagged and was given 10 hours
to get out of the city. If he is not
gone by that time he must serve 30
days in the county jail.

Charles Mackbee, who was arrested
for drunkenness, was before Justice
O'Mara today and was fined \$4.80.

North Star's are odorless and clean-
able.—6-dtf

In Business Again.

I am prepared to negotiate all classes
of loans on short notice. Money to
loan on horses, cattle, grain, growing
crops, buggies, carriages, furniture,
pianos, watches and diamonds. We
buy notes and loan money on real
estate at lowest rates. Will take any
kind of security, so it's good. Call
and see me Albert T. Summers,
Loan Broker, No. 145 North Water
Street.—may 20-d&wlm

Sprudel, King of Mineral Water.

Unsurpassed as a beverage and a
table water. The best Kidney Tonic
and Restorative known. A corrective
for Dyspepsia, Headache and Constipa-
tion.

Approaching Marriage.

The marriage of Jesse Yohe of Post's
jewelry store and Miss Grace Walker
is announced for the coming month.

It costs you nothing but a street car
ride to see a good specialty show at
Riverside park tonight.

Pennsylvania lawn mowers, Scovill
Co.—6-dtf

There are 118 schools for music alone
in Berlin.

DON'T HURT SOME.

But Coffee Certainly Ruins Some of
the Most Highly Organized
People.

"One year I lived where the water
was bitter with iron and I could not
bear to drink it, so I began drinking
coffee three times a day.

Gradually I noticed an uncomfor-
table feeling in the stomach, and more
or less constipation. In a few months
I began to lie awake at night long
after I had retired.

This increased, until I never thought
of going to sleep before 3 or 4 o'clock
in the morning, and then only after
getting out of bed and walking the
floor for an hour.

I was talking of my nervous state
with a friend, who suggested that
perhaps it was the coffee I had been
using. She felt quite sure it was, and
stated that coffee would not stay on
her stomach at all, but as she felt she
must have a hot drink for breakfast,
she had been using Postum Food
Coffee. She said she didn't like
Postum particularly well, and at
breakfast the next morning I didn't
wonder when I tasted the flat drink
that the servant brought on.

The same day I was invited to take
dinner with another friend, Mrs.
Foster. I had visited her often before
and knew she made delicious coffee,
so when she asked how I liked her
coffee, said, "It was just as fine as
usual." She invited me to have
another cup, but I said, "I would not
dare to take the second." "Oh, you
can drink as many cups of this as you
like; it won't hurt you. This is
Postum Food Coffee. We have been
using it a year now, and the little
children have all they want and our
family have never been as healthy as
in the past year." "Postum," said I
doubtfully, "why the Postum I had
this morning didn't taste any more
like this than dish water." "Perhaps
it was not made right," said my friend,
"I have known more than one person
to be turned away from Postum be-
cause it was poorly made. There is
no secret in it; only allow it to boil
long enough to bring out the taste,
and there you are." I have been
using Postum since, and am entirely
cured of my trouble. I cannot say too
much for it. Grace A. Foster,
Omaha, Neb.

Under Arrest.

F. E. Culver, charged with swindling
gullible women at Taylorville by
getting them to sign receipts for books
which turned out to be notes, returned
to Taylorville Monday and was imme-
diately placed under arrest. It appears
that Culver invites prosecution, claim-
ing to be innocent of any intent to
defraud. The trial was fixed for
Thursday and bail was furnished in
the sum of \$500.

\$1 Excursion to Indianapolis, Sunday
June 25.

On Sunday, June 25, 1899, the In-
diana, Decatur and Western railway
will run a special excursion train to
Indianapolis, leaving Decatur at 8:30
a. m. Returning leave Indianapolis at
8:30 p. m., at \$1 for the round trip.
See or write agents for full particu-
lars. John S. Lazarus, G. P. A., In-
dianapolis, Ind.—19-dtf

Mackinaw Excursion.

The Y. M. C. A. ran an excursion
to Mackinaw Falls today. About 200
persons took advantage of the excu-
sion and will spend the day at the
falls. The Y. M. C. A. and Wheel-
men's club base ball nines will play a
game. The excursion was given by
the association to raise money for
laying out an athletic park.

Glorious News

comes from Dr. J. R. Cargile, of Wash-
ington, D. C. He writes: "Four bottles of
Electric Bitters has cured Mrs. Brewer
of scrofula, which has caused her great
suffering for years. Terrible sores
would break out on her head and face,
and the best doctors could give no help;
but her cure is complete and her health
is excellent." This shows what thou-
sands have proved—that Electric Bitters
is the best blood purifier known. It's
the supreme remedy for scrofula, tetter,
salt rheum, ulcers, boils and running
sores. It stimulates liver, kidneys and
bowels, expels poisons, helps digestion,
builds up the strength. Only 50 cents.
Sold by J. E. King and C. F. Shilling,
druggists, Decatur.

Fire Bug! \$200 Reward!

The undersigned association of
premium payers are maintaining a
fund out of which is offered a Reward
of \$200 for the arrest and conviction
of any incendiary in any of the as-
sociated towns. The numerous fires in
the country at large and the resulting
fire sales of damaged merchandise are
a heavy burden on the property and
business interests of the state. Prop-
erty Owners' Fire Association, Rock
Island, Ill.—may8-d6moe

Can't Get Good Men.

Sergeant Fullmer, who is in charge
of the local recruiting office, is hav-
ing some difficulty in securing good
men for the army. During the past
three days 12 men made application
and all were rejected for various
causes. Ninety men have been secured
since the office has been located in De-
catur and in a few days it will be
moved to Danville.

156 Car Loads.

We have the picture of the ocean
steamer Celtic, which conveyed to
Manila, Philippine Islands, a cargo of
Pabst beer containing 156 carloads.
Verily our patriotic soldiers know a
"Good Thing." Gus Ahrens' Bottling
Works, Decatur agents for Pabst beer.
Don't be without a case this hot
weather. Both phones.

Insurance gasoline stoves can't ex-
plode.—4-dtf

TUESDAY, JUNE 20, 1939.

CAMPAIGN AND TRUSTS.

As time goes on the opportunity of seizing upon trusts to do duty for the Democratic campaign as a campaign issue goes aglimmering. If it were not for protection and its present popularity as a Republican principle and the fact that the Democratic party stands committed to free trade or low tariff and protection in business the country would not have heard any howl from the Democratic campaigners about trusts. It was only the hope that the public might be deceived by the anti-trust cry and the country be again committed to a low tariff policy by restoring the Democratic party to power that caused the campaigners to take it up. As a matter of principle these people care nothing more about trusts than they care for the prosperity of the people when considering means to get into power by deceiving the people as they did in 1890 and again in 1892.

The Democratic theory that protection breeds trusts has had several severe blows recently. The fallacy of this claim, and it might be said its sincerity also, is shown by an article from the pen of H. W. Macrosty, an English economist, in the March Contemporary Review. It shows that the trust principle is already established and gaining ground in Free Trade England. The writer refers to a multitude of trusts in that country, one of them capitalized at \$50,000,000. This alone completely upsets the claim that protection breeds trusts and proves the claim that trusts are due solely to competition, which reaches beyond the healthy and makes prices profitable. This condition may exist as well under free trade as under protection and because one or the other exists there is no more reason why such organizations should be charged to the tariff system than to charge it to the church because it exists. These facts are becoming clearer every day and as they are better understood the chances for using trusts as a successful campaign issue are about in the same proportion that free coinage at 16 to 1 was when the people came to understand that 50 cents worth of silver stamped a dollar meant universal disaster to the country and could be beneficial to none.

The Democratic party is in sore straits for an issue and stand no show to win in 1900. That party has sown to the wind and is now reaping the whirlwind. It has not been honest with the people. It has deceived them. Its promises have universally failed and as a result it has lost the confidence of the people. It's success means disaster to the country, while the management of the Republican party means prosperity and the application of business methods to the government and the people are not desiring a change. Unjust trusts will die of their own weight. Proper and legitimate ones will harm nobody.

LABORER GETS HIS SHARE.

Louisville Courier-Journal: A general advance of 25 per cent was made in the wages of the members of the Amalgamated Association of Iron, Tin and Steel Workers at Detroit last Saturday. This raises salaries to 45,000 men and puts wages at the highest point since 1892. The workingman is getting his share of the good things passed around in these piping times of prosperity and the gold standard.

Sugar Trust Havemeyer is disgruntled because the Republicans refused to permit his trust to write the Dingley tariff law. He had done this largely in the case of the Gorman-Wilson tariff so he is now inclined to charge that trusts are due to protection, while at the same time his trust exists regardless of the fact that he says sugar is not protected. This, however, is but the opinion of a Democrat. Another Democrat, James Barrett, vice president of the Georgia state agricultural society is equally positive that all trusts are due to railroads. He says: "Railroads are both the daddy and mammy of trusts." This indicates there may be some question as to whether the Democrats will split on trusts or decide to wipe out protection or railroads. But after all the best thing is to wipe out the Democratic party.

St. Louis Globe-Democrat: Speaking of our foreign exports of meats, Robert P. Porter, who has just investigated trade conditions abroad, states that American dealers seeking to sell their products in Europe "are constantly met with extracts from our own journals and declarations of our own statesmen and officials to the effect

Does Coffee Agree With You?

If you drink Grano-made from pure grain, a lady writes: "The first time I made Grano I did not like it. But after using it for one week I found it was just what I needed to coffee. It is nourishing and feeds the system. The children can drink it freely with milk and cream. It is the strengthening substance of pure grain. Give a package today from your grocer. Follow the directions in making it and you will have a delicious and healthful coffee beverage for old and young. No and so."

that our meat is bad." The copperheads will be glad to hear that they have damaged their country in other quarters than the Philippines.

Those people who think it a mark of supreme honesty and intelligence to advocate independent voting and the multiplying of parties might profit by the study of French history at this time. The citizen who is never satisfied unless he has a little party of his own is as useless in a Republic as a modern prophet is in a church.

The Democratic campaigners in the case of Elard are again demonstrating how they can land a public man to the skies after he has died, who, while living, was victimized by them.

The Cuban soldiers, after all, are not at all backward about coming to the front for their \$75. They seem willing to turn their machetes over for the plov.

General Wheaton's men have given the Philippines another lesson along the line that they cannot surprise the American troops without getting whipped and shot to pieces.

The push still talks of attacking the salary of the mayor they elected, because he would not drill.

A Card of Thanks.

I wish to say that I feel under lasting obligations for what Chamberlain's Cough Remedy has done for our family. We have used it in so many cases of coughs, lung troubles and whooping cough, and it has always given the most perfect satisfaction; we feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks. Respectfully, Mrs. S. Dorr, Des Moines, Iowa. For sale by J. E. King and C. F. Shilling.

The sun yields 800,000 times the light of the moon.

Any Old Sore.

Cut, Bruise or Sprain, quickly healed with Chamberlain's Salve, the greatest healing remedy in the world. H. W. Bell, N. L. Krone, W. H. Hubbard.

It's some consolation to find yourself at the bottom of the ladder when it breaks.

Kodol Dyspepsia Cure completely digests food within the stomach and in testines and renders all classes of food capable of being assimilated and converted into strength giving and tissue building substances. H. W. Bell, N. L. Krone, C. F. Shilling, East End Drug Store.

In the game of life the one-armed man always plays a lone hand.

There is a time for all things. The time to take DeWitt's Little Early Risers is when you are suffering from constipation, biliousness, sick headache, indigestion or other stomach or liver troubles. H. W. Bell, N. L. Krone, C. F. Shilling, East End Drug Store.

There is no sympathy between a proud mind and a beggar's purse.

J. A. Scheer, of Sedalia, Mo., saved his child from death by giving One Minute Cough Cure. It cured coughs, colds, pneumonia, la grippe and all throat and lung troubles. H. W. Bell, N. L. Krone, C. F. Shilling, East End Drug Store.

Civilization enables some men to realize the fact that they are savages.

BACKACHE should never be neglected. It means kidney disorder which, if allowed to run too long will result in Bright's disease, diabetes or other serious and often fatal complaints. POLEY'S KIDNEY CURE is guaranteed for kidney disorder. H. W. Bell, N. L. Krone, W. H. Hubbard.

An unbridled passion sometimes leads to the halter.

What is Kodol Dyspepsia Cure? It is the new discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything ever known to the medical profession. H. W. Bell, N. L. Krone, C. F. Shilling, East End Drug Store.

It's an easy matter to chase any man you can get on the run.

Truths Tensely Told.

Poley's Kidney Cure is a safe remedy for all Kidney and Bladder Diseases. Guaranteed. 50c. H. W. Bell, N. L. Krone, W. H. Hubbard.

The mule is very apt to be behind with his business affairs.

What you want is not temporary relief from pain but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. H. W. Bell, N. L. Krone, C. F. Shilling, East End Drug Store.

Every man is more or less of a gossip, but he refuses to admit it.

Tetter, Eczema and Skin Diseases yield quickly to the marvelous healing qualities of Chamberlain's Salve made from a prescription of a skin specialist of world wide fame. 25c. H. W. Bell, N. L. Krone, W. H. Hubbard.

Silence is doubly golden when you can't think of a satisfactory answer.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various cough medicines. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles. H. W. Bell, N. L. Krone, C. F. Shilling, East End Drug Store.

The bogs of Ireland cover 2,800,000 acres.

The West India humming-bird weighs only 3 grains.

A man could make money with five fingers if he didn't have ten for it to slip through.

The dome of St. Peter's would cost \$50,000 to gild.

GLAD IT WAS LOST.

The Spanish Masses Greatly Rejoice in the Separation of Cuba and Spain.

"I have spent the last six months in Spain," observed a well-known resident of the capital to a Star reporter, "and only left there three weeks since, and contrary to the general impression on Spanish people who were not actually glad that Cuba had passed out of the custody of their government. Of course, all do not openly express this view, for it would be regarded as disloyal to do so, but there are but few who do not talk that way in private conversation. Cuba has been a sore spot to the people of Spain for many years, and it has cost an enormous amount of money to preserve the government there, besides the thousands and thousands of lives. The people of Spain are a healthy people, and those of them who were drafted and otherwise forced into the Spanish army and transferred to Cuba died there in greater numbers than did our soldiers, for they were much more susceptible to the fever of Cuba than many of our people who had been raised in the south. I talked to hundreds of people, men and women, in all parts of Spain, who told me freely they were glad that Cuba had forever passed out of existence as a possession of Spain. Many of them had parents, sons, brothers or other relatives who had gone there and died. For many years the Spanish government would give no information to the people in Spain as to the whereabouts of their soldier friends or relatives. As far as possible they prohibited the receipt of letters from Cuba, and especially from those in the Spanish army. They allowed the Spanish soldiers to write to their homes as often as they wanted to, but took special pains to see that no letter was ever delivered if it contained the slightest information that the government did not desire should reach the people of Spain. "In some cases the government went so far as to inform persons who wrote asking in relation to the condition, health, etc., of soldiers, that they were well and were satisfied with their duties, when it was developed by the return to Spain of members of the same command that those inquired about had been dead in some cases six months, and that the government had official information of the fact, though they concealed it. It is wonderful how many Spanish soldiers have died and been buried in Cuba during the past six years. They seemed to die of it a week after they were attacked by the fever. In every case the officials of the Spanish army promised that the bones would be sent back to Spain for interment, but in no instance was that promise ever carried out. In a number of cases prominent people in Spain have during the past four months given public utterance to this feeling and it was wonderful how popular the expression was. The entire press of Spain, however, is directly influenced by the government and such expressions are suppressed."—Washington Star.

A CLEVER RUSE.

Through its Employment Was Ascertained the Identity of a Deranged Man.

About two years ago the late Col. John P. West, of Minneapolis, was a member of a party traveling from Washington to Philadelphia and the subject of physical exercise came up. The colonel admitted he didn't take enough, but that he had procrastinated in beginning to take more, as the doctors had directed.

"This conversation reminds me," continued the colonel, "of a peculiar circumstance that occurred at the time when the newspapers were filled with disappearance in various parts of the country. A man came to the house one evening and was assigned a room. The next day it was discovered that the man did not know his name nor where he came from, neither could he give any account of himself. My attention was called to the case and I soon satisfied myself that it was a case of suspended mental faculties, and that it was another case of lost identity. I could see from a glance that a well-bred and educated man stood before me, and I was satisfied that he was a man of no small influence where he was known, and, although he had no money, I took a special interest in the case and made every effort to find out who he was and where he came from. One day after he had been at the hotel for about a month, and after every effort had been made to find his friends and relatives, I had him stripped, thinking that there might be some mark on his body that would disclose his identity. No mark was found, but what we did find was the finest developed man I ever saw. A brilliant idea came to me. This man's splendid physical development never came by chance. I felt certain that it was the result of a special physical training, and that it was acquired in some club or gymnasium. I had his photograph taken and sent to all the leading clubs and gymnasiums in America, stating the circumstances in my desire to ascertain the man's identity. In less than a week I had the satisfaction of learning who he was, and within two weeks there after he was in the hands of his friends and safely on his way to the east. He proved to be a prominent architect in an eastern city and overwork had temporarily unbalanced his mind."—American Builder.

656,000 Died from Famine.

In 1891 the death rate in Russia rose from 22.7 to 38.2 per 1,000; or, expressing the same fact in absolute figures, the number of deaths attributed to famine was 656,000. If the famine of 1891 is to leave these figures far behind there can be no question of the terrible intensity.—Philadelphia Record.

Had Kidney Disease 27 Years. Mr. G. H. Sullivan, a merchant of Tampa, Fla., writes: "Poley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health, and Poley's Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and today I feel ten years younger than I did one year ago. I can obtain some wonderful cures of the medical profession. H. W. Bell, N. L. Krone, W. H. Hubbard.

If the famine of 1891 is to leave these figures far behind there can be no question of the terrible intensity.—Philadelphia Record.

Had Kidney Disease 27 Years. Mr. G. H. Sullivan, a merchant of Tampa, Fla., writes: "Poley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health, and Poley's Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and today I feel ten years younger than I did one year ago. I can obtain some wonderful cures of the medical profession. H. W. Bell, N. L. Krone, W. H. Hubbard.

PITH AND POINT.

Sometimes a baby is most peaceful when it's up in arms.—Golden Days.
If at first you don't succeed, O base runner! you'll never get to second.—Puck.

The more mean men you find, the more firmly you should determine to have one good man in the world.—L. A. W. Bulletin.

"There are men of good parts," observed the professor, "who never succeed in the drama of life because they don't know how to act them."—Chicago Tribune.

Fendole—"He raised my hopes, only to crush them to the ground." Patience—"Why, what did he do?" Fendole—"He kissed me once and then stopped."—Yonkers Statesman.

Charley (to papa, who likes to spend the evening at the tavern)—"Papa, help me with my example, and I'll tell you something." Papa—"What will you tell me?" Charley—"I'll tell you where mamma hid your boots."—Ellegende Blaetter.

A Bridgeport (Conn.) man fired point blank at the heart of his wife, but the bullet, glancing off a corset steel, did no harm. The moral of this tale is that a woman should always wear a corset when she is to be shot at.—Rochester Herald.

The clergyman's little son was telling the small son of a parishioner of the dreadful fight which he and his sister indulged in. "You don't mean to say that ministers' children fight?" replied the horrified little layman. "Oh yes," "Who whips?" "Mamma."—Pittsburgh Chronicle-Telegraph.

The Yankee in Paris. "Yes, monsieur, these are the shoes worn by Louis XVI, when led to execution." "He must have limped painfully." "On the contrary, monsieur, he walked boldly upright and with great dignity." "We must have been a marvel of stoicism. Both these shoes are rights."—Cleveland Leader.

EXTENT OF RUSSIAN RULE.

One-Twelfth of the World's Entire Male Population Are Subjects of the Czar.

Speaking of Russia the other day, Lord Salisbury spoke of it as "the nation that in material respects is the most powerful nation on earth."

"Russia, with its enormous forests, its vast steppes and its huge rivers, is almost a world in itself. Extending over 8,644,100 square miles, or one-seventh of the entire land surface of the globe, it is but 3,000,000 miles less than the whole extent of our scattered possessions, on which we boast the sun never sets.

"Its water surface alone measures 293,013 square miles, or enough to make an immense sea in which our little England could be placed six times over and still have room for more.

"To every square mile of territory there are 15 human beings who owe allegiance to the czar, or a grand total of nearly 130,000,000. In fact, one human being out of every 12 on earth is ruled by the czar. Its fighting strength numbers over 11,000,000. It can put a fully equipped army into the field of 1,355,000 combatants and back it up with another almost as well accoutered of 1,100,000 men, a total number of first-class fighting men of over 2,400,000, with 497,415 horses and 1,436 heavy guns.

"Let the whole of this immense body of regular troops be overcome and there will even then be the reserve to reckon with, a force estimated at fully 9,000,000.

"The difficulties of mobilization would, no doubt, be very great, but these grow less every year. Russia has now 16,651 miles of railway owned by the state and 8,972 miles worked by private companies, while in course of construction there are nearly 8,000 miles more.

"In addition to its forces on land Russia has a navy which, although by no means the finest in the world, will one day have to be reckoned with seriously. It is divided into four fleets, and its total consists of 23 battleships, 14 coast defense vessels, 20 cruisers, 28 gunboats and 96 torpedo boats, manned by 1,249 officers, 326 engineers and 38,000 seamen.

"Then it has a mercantile marine consisting of 522 steamers and 2,135 sailing vessels, while on its rivers there is a flotilla of over 20,000 vessels of all descriptions, with crews totaling 90,350 men. All these would be available in case of war.

"Moreover, Russia is not dependent, like we are, on outside sources for food. Pasturing on its vast plains are to be found in European Russia alone 24,000, 269 head of cattle, 44,465,459 sheep and 3,243,000 pigs, while under crops there are no fewer than 1,098,507,760 acres of arable land. In other words its vast population it was last year able to export abroad over 300,000,000 quarters of cereal crops."—Chicago Chronicle.

A Fine Memory.

"How about that V, Darby, that you have owed me for so long a time?"

"I declare, Brown, you must excuse me, but it had escaped my mind completely. I'll fix it up in a day or two." On the next corner Darby met Smith. "Smith," he said, "I was going to speak to you about the money you owe me."

"Do I owe you any money?" "Yes; don't you remember you borrowed two dollars of me a year ago the 17th of June? It was about 12 minutes after eight in the evening. These little transactions have a knack of sticking in my memory."—N. Y. World.

Vaccination in Germany. Since vaccination was made compulsory in German cities, in 1874, only a few cases of smallpox have been observed, and most of those occurred in foreigners coming from countries without compulsory vaccination.—Albany Argus.

Had Kidney Disease 27 Years. Mr. G. H. Sullivan, a merchant of Tampa, Fla., writes: "Poley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health, and Poley's Kidney Cure has made it such. SETTLER DEAD EXCITING DAYS AT CLEVELAND

Joseph Smith Passed Away at His Home Near Decatur
No End of Trouble

HELPED BUILD I. C. ROAD
And Had Lived in Macon County for the Past Forty-Five Years and was Well Known.

Joseph Smith died this morning at his home, two miles southwest of his birthplace, in Macon county for the past forty-five years. He was one of the founders of this community, having been in Macon county for the past forty-five years. He was a 40-acre landowner near Wyckles and was a prominent citizen of the county. Mr. Smith was one of the men who helped build the Illinois Central railroad in the 50s. He is survived by three sons, John, Charles and Andrew Smith.

The funeral will be held at 11 a. m. tomorrow from the Salem church and the burial will be at the Salem cemetery.

WASTE PAPER BOXES.

Representatives of Company Will be Here Soon to Make Arrangements.

The representative of the company that will put in the waste paper boxes in all parts of the city, is expected to arrive here in a few days to make arrangements. At the last meeting of the council the aldermen passed the resolution providing for the boxes and the city will enter into contract with the firm as soon as the agent comes to Decatur. The company places large boxes at different places to receive scraps of waste paper. On the outside of the boxes are painted advertisements and the city gets 10 per cent of the money derived from the advertisements. The scheme will be a boon to the city and the plan will doubtless cause the street to be kept much cleaner. One of the aldermen who was in Chicago a few days ago, says that the boxes are on nearly every corner, and that he believes the plan seems to work well in that city.

As a Curative. Sprudel is a Specific for Rheumatism and cures cases where other remedies have failed. Sold Decatur Bottling Works, 54.

Colored Man Injured. A colored man by the name of Thompson, living on West street was injured by being run over by a wagon tongue this morning. He was standing in the street, looking down and saw the wagon coming along and he tried to get out of the way but the wagon struck him and he was thrown into the air. Dr. Frank M. Anderson is attending to him.

EXCITING DAYS AT CLEVELAND

No End of Trouble in the
Street Car Strike.

CLEVELAND, OHIO, June 20.—At
1 o'clock this afternoon a special com-
mittee of the city council, appointed
to try to settle the street car strike,
met the representatives of the strikers
and the company, but took a recess
pending preparation by both sides of
their positions in writing. About
noon a crowd boarded a Wade Park
avenue car and beat the non-union
motorman into insensibility. The
conductor fled.

Several other cars were stoned. The
passengers escaped as best they could
when the stones began to fly. The
conductors and motormen were struck
repeatedly. George Berg, Jr., a striking
conductor, was hit in the leg by a
bullet fired by a non-union conductor.
No arrests.

LETTER LIST.

The Flight of Locusts.

Carruthers, in Nature, estimates a
great flight of locusts that passed over
the steamship Golconda, when off the
Great Banish islands, in the Red sea,
in November, 1859, at over 2,000 square
miles in extent; the number of insects
he calculates to have been 24,420,000,
300,000, and the weight of the mass 42-
580,000,000 of tons, each locust weighing
one-sixteenth of an ounce; and the ship
of 6,000 tons burden, he adds, must
have made 7,000,000 voyages to carry
this great host, even if packed together
111 times more closely than they were
flying. Another, apparently a stronger
flight, was seen going in the same di-
rection next day. According to official
accounts of locusts in Cyprus, no fewer
than 1,600,000,000 egg cases were col-
lected and made away with in 1881, up
to the end of October; and by the end
of the season the weight of the eggs
collected and destroyed amounted to
over 1,300 tons. In 1639 locusts devast-
ated the island of Teneriffe. On the
way over (from Africa) they alighted
on the water in a heap as big as the
largest ship.—"True Tales of Insects."

THE END IS NEAR

Saturday, June 24th, Will
Positively be the

Last Day of the Closing Out Sale of
the Phillips Stock of Pianos
and Organs.

SIX PIANOS SOLD YESTERDAY.

Yesterday was the banner day. We
sold six pianos and two organs. Bar-
gain hunters were out in full force.
They came, they saw, they bought.
Each purchaser of a piano was saved
not less than \$100. We publish no
names of the parties who have bought
but simply say that during the past
week we have sold from this store 28
instruments. This goes to show that
we are advertising facts and that the
people are not slow in taking ad-
vantage of an opportunity to save
money.

If you are in a position to buy a pi-
ano or an organ do not delay for the
time is short and the number of instru-
ments growing less every day.

A FEW SPECIALS FOR TOMORROW
Two pianos will be sold tomorrow
for \$177. \$10 cash and \$5 per month
takes one.

One Organ—\$10.
One Western Cottage Organ—\$20.
One Miller Organ—\$20.
One Miller Organ (better)—\$30.
A new Organ—\$30.
Good Practice Piano—\$25.
Another (better)—\$25.

\$5 cash and \$3 per month buys any
of the above named instruments. Re-
member that Saturday will positively
be the last day. All goods not sold
will be shipped. Phillips old store,
326 North Water street, Decatur, Ill.
Store open every night.

W. B. BRINKERHOFF,
Special Agent.

THE BROOKLYN CONTROVERSY

What Schley Said at the
Battle of July 3.

WASHINGTON, June 20.—Some
time ago the secretary of the navy ap-
pointed Captain Chadwick, com-
mander of the cruiser New York, to
take testimony touching the contro-
versy over the question of the circum-
stances attending the turn to the star-
board by the cruiser Brooklyn, mak-
ing a loop at the command of Commo-
dore Schley, in the battle of July 3
last, when Cervera's fleet was de-
stroyed. The statement of Lieutenant
Commander Hodgson of the Brooklyn
has already been published. The de-
partment today made public the state-
ment of Lieutenant Commander Heil-
ner, member of the board to fix the
positions of vessels during the action.
He says that Lieutenant Commander
Hodgson repeatedly detailed to him
the circumstances and commands of
the commodore at the time of making
the turn. Heilner says that Hodgson
told him their stadimeter gave 800
yards as the distance from the line of
the Spanish vessels. He said: "We
were so close Schley gave the order
hard apart. I said to him, 'You
mean starboard, do you not?' The
commodore said: 'No, I mean apart;
we are close enough to them now.'
Hodgson then said he called attention
to the position of the Texas and told
the commodore he thought there was
danger of running her down. The
commodore replied: 'Damn the Texas,
let her look out for herself.'"

Tumor Removed.
Drs. Everett J. Brown and Will
Barnes, assisted by Dr. Sparling of
Moweaqua and Drs. W. C. Wood and
Leroy Dunn of this city, this morn-
ing at St. Mary's hospital removed a
fibroid tumor from Miss Rebecca
Coulter of Moweaqua. The operation
was of a very delicate nature.

Called to Lovington.
John Perl, the undertaker, was
called to Lovington today to embalm
a body and take it to another town for
burial.

Born.
To Mr. and Mrs. J. D. Deakins of
984 West Corro Gordo street, on Mon-
day, June 19, a daughter.

If you want to see fun and enjoy a
good laugh go to Riverside park to-
night. Free show.

—Miss Susie Ball, who has been
visiting Miss Stout of North Water
street, has returned to her home in
Clinton.

—Mrs. L. A. Buckingham will leave
on Thursday for a trip which will in-
clude visits at Chicago, South Bend,
Ind., and Diamond Lake, Mich.

—Dr. J. G. Ellis was at Oakley.

—Frank Moon of the Wabash, who
is taking a lay off, and George Haxel,
will go to Bloomington tomorrow to
visit friends.

THE magic something by which Mr. Robert Foerderer changes a young
goat's skin into Vici Kid is his secret. Any other tanner in the world
would gladly give a fortune to know this secret. It won't be sold.
There can be no

Vici Kid

that is not of Mr. Foerderer's tannage. At the rate things are going the
whole shoe wearing world will soon be insisting on Vici. Why not? It is the
easiest, handsomest, most lasting of fine shoe leathers.
For a short time we are making a special effort to get the merits of this
leather before the people of Decatur.
At the same time we shall have competent people to teach the ladies and
children how to keep their shoes looking like new, till too worn to wear.
There is no charge.

VICI DRESSING and VICI POLISH were made by Mr. Robert
H. Foerderer, to place with wearers of his shoes, a preservative and dresser
perfectly suited for the purpose.

Don't forget **DOLL'S DAY**, Saturday, June 24. Every dolly in
Decatur and hereabout ought to get new slippers that day. It will cost them
nothing.

FOLRATH.

Two gasoline stove accidents Saturday. Had they used an Insurance gasoline stove they never would have happened.—6-dtf

Temperature in Cuba. The following temperature data compiled from the records at Havana, Cuba, will be of interest: The mean temperature for July is 82.4 degrees; the highest temperature recorded in the decade was 100.6 degrees in 1891 and the lowest was 71.2 degrees in 1892.

The rainfall data are compiled from a 30-year period. The average monthly rainfall for July is 6.06 inches. The greatest monthly amount was 15.09 inches in 1886 and the least 0.64 in 1885. The greatest amount that fell in 24 hours was 3.28 inches. The average number of rainy days is 12.7; the greatest number of days upon which rain fell was 20 in 1866 and the least 7 in 1872.

The table showing mean temperature for the years from 1868 to 1897 is as follows:

Year.	June.	July.	Aug.	Sept.
1868	69	73	73	73
1869	71	73	72	74
1870	73	72	71	71
1871	72	72	73	72
1872	72	71	72	72
1873	71	71	73	72
1874	71	72	72	72
1875	73	73	73	73
1876	73	73	73	74
1877	72	72	70	72

These tables will show Americans now making their homes in Havana what they may expect for the summer months. The tables are presented through the courtesy of the weather bureau and may be relied upon.

At Sargent's Chapel. Children's day was celebrated at Sargent's chapel on Sunday with appropriate exercises. The church was handsomely decorated for the occasion and the program was unusually entertaining. Miss Beamer had charge of the program and Miss Fox arranged the decorations.

COUNCIL MEETING

Mayor Told the Aldermen They Must be More Careful.

FUNDS ARE GETTING LOW

And There Are Time Warrants Which Must be Taken Up—The Matter of Trimming Trees Was Discussed.

At the meeting of the city council last night there was not a great deal of business transacted but the aldermen consumed a good deal of time discussing matters in detail. The proceedings of the meeting are given below in detail.

PETITIONS. The bonds of Ed Kosbinski, merchant policeman, and C. W. Dvorsky, chief of the fire department, were approved.

Jesse Leforgee asked for rebate on curbing assessment for nine feet of curbing across driveway, where there is none. Referred to comptroller and engineer.

W. H. Johnson asked to put a barber sign in front of his place of business on North Jasper street. Referred to sidewalk and crossing committee.

PAY ROLLS. The pay roll of the street superintendent was read. It was for \$2105.51. The mayor stated that \$1171.51 of this amount was charged to public improvement and that if the aldermen continued at this rate there would be no money left to take up time warrants. This statement was followed by a long wrangle as to what work should be charged to the public improvement fund and what should not. Alderman Young moved that the amount be re-appropriated and charged to the proper funds. Comptroller Robbins said that he intended to figure up how much money it would take to pay up the time warrants and charge the amount so that it could not be used up. A motion made by Alderman Davis to charge the money according to the report of the street superintendent was carried.

The sidewalk and crossing committee recommended that J. G. Huffman be allowed to erect a sign in front of his place of business on North Water street and that Bowman Bros. be allowed to put up a sign. Both were adopted.

The water and light committee recommended electric light be put in at the corner of Eldorado and Van Dyke; that an arc light be put in at corner of Oglesby and Colfax and at corner of Fugh and Pine streets; that awnings be put up and painting be done at the water works; that an electric light be placed at corner of Marion and Franklin streets, and that supplies be purchased for water department. All of the above recommendations were adopted.

NEED TRIMMING. The clerk read a communication from the Decatur Gas and Electric Co. stating that trees on certain streets needed trimming and permission to do the work was asked for. In the communication it was stated on what streets it was necessary to trim the trees. The city electrician stated that it was necessary to trim trees where they came in contact with the light wires. After considerable discussion on the motion by Ald. Grindol it was decided that the wires should be run through the alleys at points

where the wires came in contact with trees. After the motion was carried it was then moved by Alderman Birby to reconsider and it was carried by a vote of 7 to 6. It was then suggested that insulated wires be used; that higher poles be put up and that brackets be placed to protect the trees. It was finally decided to refer the matter to the street and alley committee and city engineer.

ORDINANCES. The ordinance committee reported favorably on the ordinance providing for cutting weeds, was adopted and the ordinance passed, as was also the ordinance for the placing of waste paper boxes in different points in the city.

RESOLUTIONS. That the street superintendent be instructed to put in a catch basin at the corner of Packard and Water streets. Referred to public improvement committee.

That the wooden culvert on the west side of North Calhoun at the intersection of Lealand avenue be opened out and the ditches approaching same be opened. Referred to public improvement committee.

That the two sewer inlets on North Jasper street at the intersection of East Hickory street be taken out and replaced with inlets. Referred to public improvement committee.

That board of health inspect ditches and take necessary steps to get rid of stagnant water north and northwest of Washab shops. Referred to public improvement committee.

That inlet be placed in center of block on east side of North Lawler between Washab railroad and Sangamon. Referred to public improvement committee.

That crossing be repaired on north side of Sangamon across Railroad avenue. Referred to sidewalk and crossing committee.

That a street crossing be replaced on Broadway, where the street car track was taken up. Referred.

That alley lying between Broadway and Colfax street be opened from Oglesby to Cantrell street. Referred to street and alley committee.

That street superintendent repair the board crossing on north side of Hickory street across Clayton street. Referred to sidewalk and crossing committee.

That sidewalk on Broadway be repaired. Referred to sidewalk and crossing committee.

That the Illinois Central Railroad Co. be notified to arrange crossings over tracks on Broadway and Wood streets. Referred to city attorney and sidewalk and crossing committee.

Alderman Young moved that the men who work for the street superintendent be paid off at the office of the comptroller. Carried.

North Star refrigerators use one-third less ice than Scovill Co., sole agents.

Detroit C. E. Picnic. Some time ago the members of the Christian Endeavor society of the First Presbyterian church decided to hold a "Detroit Picnic" and arrangements were made accordingly. The plan appealed to the county president, Rev. M. E. Spayd, as being an especially good one and he asked that the society make the picnic a union one and invite the other societies of the city to join them. This was done and the union Christian Endeavor Detroit picnic will be held at Fairland park on Tuesday evening, June 27. There will be a Detroit program and several special features.

Reception for Miss Murrell. The ladies of the Antioch Baptist church will give a reception at the church on next Thursday evening in honor of Miss Maggie Murrell, the young colored student who will return from Ann Arbor in a few days to spend the summer vacation with her parents.

CITY NOT LIABLE

If a Policeman Is Violent You Must Sue His Sureties.

Interesting Case from the Town of Mattoon.

SPRINGFIELD, ILL., June 20.—In the damage suit of Edward C. Craig against the City of Charleston, the supreme court has affirmed the judgment of the circuit court of Cook county. Craig is a member of a prominent family at Mattoon. He went to Charleston to attend a 4th of July celebration and, while seated in a buggy on the street, was assaulted by Special Policeman Aggar and his wife was put out.

The policeman claimed to have been ordered to keep the streets clear, but it was shown that he was a man of violent and ungovernable temper and unfit for the position he filled.

Craig sued the City of Charleston for \$25,000. He claimed the city was liable, because the mayor was grossly negligent of duty in appointing such an incompetent person as Aggar as police officer.

The court's opinion is based on a long established rule that cities are not liable for acts of violence of the police.

NEW UNIFORMS

For the Members of the Modern Woodmen Band.

The new uniforms for the members of the Modern Woodman Band have arrived and will be worn on the first public occasion. They were to have been shown today at the Mackinac picnic excursion but the band did not go.

The new uniforms are of fine, dark green cloth. The coats are cut in the style of the officers' fatigue coats of the United States army, with applique ornaments on the front of narrow edged with narrow black braid. The Modern Woodman leaf in green is worked on the shoulder straps and on each side of the collar. The trousers are of fashionable cut, with a blue stripe down the outside of the leg. The cap, which is the regulation army fatigue cap, in style is of the same cloth as the suit, with trimmed narrow black braid, on the front of the Modern Woodman leaf in narrow on which are the letters "M. W. A. 1026."

There are 22 of the uniforms, and the total cost was in the neighborhood of \$400. They are made to measure and fit like the paper on the wall. The members of the band are highly pleased with them.

The suits were furnished by the clothing firm of George W. Jones & Co., and they are the admiration of everybody who has seen them.

Joint Celebration. A joint committee of the Y. M. C. A., Turners and High school boys were to have been held last night to arrange for a 4th of July athletic entertainment, but the meeting was postponed until Wednesday evening at 8 o'clock.

Card of Thanks. Dr. and Mrs. M. D. Pollock desire to thank their friends and neighbors for the kind sympathy extended them in the loss of Dr. Pollock's father, and for the funeral offerings sent.

TWENTY-EIGHTH YEAR

SITUATION AT MANILA

As Reviewed by a Returned Health Officer.

NEED OF TROOPS

Statements by Dr. Charles A. McQuesten.

GIVEN OUT AT SAN FRANCISCO

Tender of a Frenchman by the Filipinos. He Had Gone to the Rebel Camp to Secure the Release of Spanish Prisoners—Treachery.

MANILA, June 21.—A Manila special says: Baron Du Marais, a Frenchman who went to the rebel camp to intervene in behalf of the Spanish prisoners in the hands of the Filipinos, was treacherously murdered.

Not So Rosy. SAN FRANCISCO, CAL., June 21.—Dr. Charles A. McQuesten, who was health officer at Manila, has returned home convinced. He is of the opinion that it will take 100,000 to 150,000 soldiers to subdue and hold the islands. He says the peace commission is an absolute failure; that Schurman knows this and is coming home in July.

Thousands of troops are sent to our men there they will be drawn back into Manila in the course of the next few months during the rainy season," Dr. McQuesten continued. "Our men simply cannot stand the climate. Fifty per cent will be incapacitated by sickness and the territory overrun will have to be abandoned. Manila will be in a state of siege again. The Filipinos think they have the Americans licked already."

Philippine Business. WASHINGTON, June 21.—The total receipts from all sources at the ports of Manila and Iloilo during the first four months of 1899 were \$1,414,635.

During that period 399 vessels entered and 420 cleared from the port of Manila, and 67 vessels entered and 71 cleared from Iloilo.

Going to Manila. SAN FRANCISCO, CAL., June 21.—Four transports will sail for Manila within a week, and a fifth will soon leave. The steamer Zenlandia is now scheduled to sail on Thursday.

The Sherman and Pennsylvania will depart together on Saturday, and the Valencia will follow on Sunday. The Valencia, carrying only freight, will depart early next week.

The Zenlandia will take part of the 24th infantry and the Valencia will take the remainder. The troops that have been assigned to the Sherman and Pennsylvania will arrive here late in the week.

Otis and Lawton. ELEMENT, ILL., June 20.—(Special to Chicago Tribune.)—Ralph Martin of the hospital corps at Cavite, writes under date of May 8:

"General Lawton is the man to keep the Filipinos guessing. Had he been here at the outset I believe the trouble would have been ended before now."

"When General Lawton came here it was said he would have full command of operations, while General Otis was to attend to the general administration. To this General Otis objected, and the story is that he called President McKinley asking to have command of field operations as well. This the president refused, but he did not like Lawton and they seldom meet."

MARCUS DAY. DENVER, COLO., June 21.—The book says that Marcus Day, the millionaire miner and horse breeder, is coming and that he will be worth \$5,000,000 to \$10,000,000. It is reported that he is coming to Denver. He has a stock ranch, and expects to engage in refining, independent of Smelting and Refining.

THE ALTON Ruling of Supreme Court in Favor of Colorado. SPRINGFIELD, ILL., June 20.—The Alton school board people on relation against the mayor of Alton, the supreme court opinion setting aside the jury that tried Madison county court directing that the case be sent to another jury in the Madison county.

Bibb alleged that the Alton school board who were ordered from equal privileges in the public schools and that the mayor excluded colored children from schools and compelled schools to set apart seats for the colored children. The supreme court in term sent this question to the Madison county court before a jury. The verdict rendered in this case was that the school board was not liable for the exclusion of colored children from the public schools. The court restricted the two Bibb children only. The supreme court held that the school board was not liable for the exclusion of colored children from the public schools. The court restricted the two Bibb children only.

Other errors were also pointed out by the petitioner to issue a writ to compel the mayor council of Alton to permit children to attend school convenient for them.

TO NEW YORK Go the Standard Oil Company. CLEVELAND, OHIO. The Standard Oil company to get out of Ohio. It will be removed from New York and on July charter will be given a force here will be reduced to men to less than 100 men.

The recent incorporation of the New Jersey company \$10,000,000 was the abandonment of the company. An officer of the company confirmed the report of the officers, and said he would hereafter be an officer like those in the cities.

It was suggested that the company was planning to avoid further litigation by instituting by Alton Monnet, but the officers information denied that case.

Virgil P. Kline, the company, also said that the idea that Alton Monnet had driven the state.

FARM HOUSE. KENNY, June 20.—The house of Thomas Kenny, about three miles from here, has been destroyed by fire. The cause was caused by a fire carried some distance to cover the damage. His entire estate and engine setting.

MORTUARY. CONCORD, N.H. Commodore is dead, aged 70. It's a great loss. He doesn't make a millionaires a miser and horse.

The Saving of Money

by the use of Royal Baking Powder is considerable. Royal is economical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour, butter and eggs.

More important still is the saving in health. Royal Baking Powder adds anti-dyspeptic qualities to the food.

There is no baking powder so economical in practical use, no matter how little others may cost, as the Royal

Alum baking powders are harmful and make the food bitter.

ROYAL BAKING POWDER CO., NEW YORK.
